

Your Friday Water Report

This Week's Topic:

Cabin Site Tank Rehabilitation Project

The rehabilitation of the cabin site tank is in progress and is currently on schedule. The contractor has been working diligently cleaning, sand blasting and painting both the exterior and interior of the tank. The city's water plant employees have exceeded expectations by keeping the plant operational, providing the city with exceptional service despite the lack of storage capacity. This rehab project is a prudent, proactive investment to extend the tanks' life span, which is more cost-efficient than replacing the structure. This 5 million gallon storage tank is essential to the communities water system. It ensures reliable water service is always available to meet customer demand and also provides fire protection capabilities.

Daily Averages for 1/30-2/5

Gallinas River Flow	6.053 Mgd
This week in 2018 was	Iced Mgd
Avg. River Diversions	2.467 Mgd
Yr. to date 82.800 Mg*; year max.	908 Mg
Draw from Wells	0.00 Mgd
This week in 2018 was	0.00 Mgd
Fresh Water Demand	1.526 Mgd
This week in 2018 was	1.199 Mgd

As of 2/5/19:

Bradner Storage	0.00 Mg
Peterson Storage	59.595 Mg
Storrie Lake Storage	237.246Mg
Reservoir Storage	59.0%
Las Vegas Rainfall	0.00"
