

## **PUBLIC SERVICE ANNOUNCEMENT**

**July 13, 2020  
9:00 a.m.**

The City of Las Vegas Utilities Department will have a contractor testing and inspecting fire hydrants around the City for the next two weeks.

The purpose of this is to help maintain water quality standards and the fire protection system. Citizens may experience brief periods of discolored water or low pressure which is normal during flushing operations.

We apologize for any inconvenience. Please contact the Utilities Department at (505) 454-3832 with any questions.
